hp takes printing in a whole new direction–

Need to close the deal in LA and print the contract in NYC? Stuck in Chicago, but your spreadsheets have to be at the meeting in Dallas? With HP's ePrint, if you can e-mail it, you can print it.

With innovative HP ePrint mobile printing, location is irrelevant. Now you can use your smartphone or notebook to e-mail everything from pictures to crucial work documents, directly to any web-connected, HP ePrint-enabled printer—no matter where you are. Use nearly any mobile device with e-mail capabilities to send your documents directly to anyone's HP ePrint-enabled printer.

A

RATED EXCELLENT By Evan

The innovative print solutions on these two pages feature HP ePrint mobile printing that lets you e-mail photos and everyday documents directly to your HP printer using a smartphone, notebook or any device with e-mail capabilities, whether you're across the room or across the country. Network ready. ENERGY STAR® Qualified. Manufacturer's limited one-year warranty.

11-SD-L1-MAR

"Document management. We're not just talking paper here."

"Document management," it's the catch phrase for dealing with all things data—print and otherwise. Considering the behemoth of data that surrounds us, it's no wonder folks are on the lookout for better ways to capture it, save it, digitize it or get rid of it altogether. FYI, we've got it covered—scanners, shredders, storage and more—tools to tame the beast and make you master of your data domain.

"Don't let "big" bog you down"

Make fast, easy work of printing presentations, signs and spreadsheets—any doc up to 11" × 17".

C. MFC-5895CW Professional Series Inkjet All-in-One Printer with Wireless Networking Get professional print quality and get it fast with speeds up to 35 ppm black and 28 ppm color. 3.3" color LCD screen displays edit, preview and help functions. 150-sheet paper tray. 50-page auto doc feeder. 4,000-page monthly duty cycle. Hi-speed super G3 33.6kb/s fax modem allows for black and white and color faxing with or without a PC. Network ready. Ethernet, USB, Wi- Fi, PictBridge interfaces with slots for media cards. ENERGY STAR Qualified. Manufacturer's limited two-year warranty.

Clickfree™ C2N Wireless Desktop Backup Drive

"No software to install. No need to speak geek. Hellooo no-brainer backup"

clickfree™ Automatic Backup

A. C2N Wireless Desktop Backup Drive It doesn't get easier than this: just plug in the C2N, once, to all of your computers, PC or Mac. That's it—the configuring's done and backup's automatic from then on. No network knowledge required! Makes it so easy to restore or transfer files to new computers and operating systems. Perfect for importing iPod, iPad and iPhone playlists. Equally adept at sharing pics via e-mail and social networking sites directly. Viewer provides quick browsing and easy access to everything you've backed up. Fast USB connectivity. Works with Mac® OS X 10.5 and Later, Windows® XP, Vista®, 7. Manufacturer's limited three-year warranty.

No.	Capacity	Unit	Price
SAP-1037N1004100	1TB	EA	139.99

Way more than meets the eye:

1 INNOVATIVE The world's first multi-unit backup solution that backs up every PC and Mac you've got without having to be plugged into each of them.

2 COMPLETELY AUTOMATIC Restores, backs up and organizes all of your files—automatically.

3 CONVENIENT Backup Link™ technology links your computers and automatically backs them up—all of them—PC or Mac—at the same time.

4 SMART Smart Restore allows for totally automatic recovery of all backed up files. After all, your backup's only as good as your restore.

5 CUSTOMIZABLE Maybe you only want to backup Word docs on one computer, photos on another. No problem. Easy interface lets you manipulate the settings for all or just one.

6 AWARD-WINNING Deservedly! It earned Laptop Magazine's Best of CES 2010.

"One less thing to worry about"

Easy, speedy little drive keeps data safe, stored and comes with a never-lose cap.

innovera technology essentials

UNIVERSAL PERFECTLY PRACTICAL

KNOW A Little History

They saw a need, and man did they fill it

Storage solutions should be so easy that people without a speck of tech expertise feel confident using them. That's the philosophy of Storage Appliance Corporation and Clickfree. In fact, it was precisely because of the market's lack of consumer-friendly backup options that Clickfree was born. Clickfree is a complete line of automatic backup solutions designed for total convenience and simplicity. Innovative devices with absolutely nothing to configure or install, they completely eliminate the complexity of backup and the fear factor that goes along with it. Basically, if you can plug in, you can back up. Gotta love that. No wonder Clickfree is one of the favorite names in backup today.

clickfree™ Automatic Backup

KNOW Trends

Document management, kind of a misnomer, I think, as the word "document" still conjures images of paper. Actually, document management is an umbrella term referring to the capture and management of data, whether printed or digital, and as such, it's a big deal. Any way you look at it, we're dealing with data, lots and lots of data. And, while we may not be working in the "office of the future" as predicted in Life some 60 years ago, we're getting there. Today's reality is rife with technical "marvels" that make processing, protecting and putting data away faster, easier and more cost-effective than ever before.

Scanners You know this, digitizing documents saves time, space and money.

Backup Drives Your data's important. Why risk losing it, especially when backing it up has never been easier? Backup drives come wireless, automatic, and one-touch. Whether you set yourself up to do it automatically or on a schedule, just do it.

Flash Storage Power, security and capacity in a neat, portable little package.

Shredders Paperless office? Maybe someday. For now, we're still surrounded by hard copy, exposing valuable info for all the world to see. Shredding provides a simple solution.

Recorders No need to stress about note-taking. A voice recorder captures every word and lets you save or transcribe later. Did you get all that?

"Sit back and enjoy the satisfaction of knowing you got it all"

Record every word, hook up the ergonomic typing set and transcribe away.

572-Hour Recording Time

D. Digital Voice Tracer 867 Enjoy up to 572 hours of MP3 recording time with crystal-clear stereo sound, courtesy of a built-in, unidirectional mic that zooms in for distant pick up. Voice-activated recording automatically records only when sound is detected. 4GB storage capacity (99 files x 4 folders). Indexing feature easily locates what you're looking for. Efficient, ergonomically designed typing set lets you keep your hands on the keyboard and control all playback functions with just your thumbs at fast, normal and slow speed. Super fast transfer via USB. Includes external clip-on stereo microphone, ultra-lightweight stereo earphones, neck strap, USB cable, media player typing set, 2 AAA batteries and user manual. Compatible with Mac® OS X 10.6; Windows® XP, Vista™, 7. Manufacturer's limited three-year warranty.

HELP Smart Solutions for the SMB

No power, no business. According to a recent Emerson Network Power study, 61% of small businesses do not have backup power systems. Scary, when you consider an even more frightening stat: according to the U.S. Department of Energy, power outages cost some $80 billion per year with 98% of those losses coming from the business sector. So, what's stopping SMBs? Time and resource constraints mostly, maybe even a little "it'll never happen to us" thinking. Fact is, sooner or later it will happen. U.S. customers lose power, on average, once every nine months, and all the good karma in the world won't keep you powered up during a blackout. Happily, loss of power doesn't have to mean lights out for your business when you have an uninterrupted power supply system. Whether for a single workstation, phone system or entire IT infrastructure, a UPS system can be a real turn-on.

"What, me worry?"

Nah. Ultra-compact UPS system buys you enough runtime to save and shut down.

B. Internet Office™ UPS System Power protection for your connected equipment. Space-saving system delivers battery-derived AC output during blackouts and brownouts. Six widely spaced outlets accommodate large transformer plugs without blocking other outlets. Built-in TEL/DSL line surge suppression protects modems, fax machines and cordless phones. USB connectivity. Free downloadable PowerAlert monitoring software. Audible alarm and front panel LEDs. $100,000 Ultimate Lifetime Insurance. CSA; NOM; UL 1778 Listed. Manufacturer's three-year warranty.

*Run Time based on single PC load with 15" flat panel monitor.

"Hi-def quality. Hi-capacity storage. Hi-fives all the way around"

With 5 times the storage capacity of DVDs and absolutely pristine picture and sound, why not go Blu-ray all the way?

C. Blu-ray (BD-R) Discs Perfect for recording your favorite shows and sporting events in crystal-clear HD. State-of-the-art, blue-violet laser technology makes all the difference. It takes the same amount of space found on a typical CD or DVD and turns it into a bastion of high-quality, high-capacity storage. Write-once format: data can't be altered once written to disc. Compatible with Blu-ray disc-capable hardware only.

HELP Solutions for the Large Enterprise Business

Speak Easy

Not all enterprise solutions have to be complex. Case in point, conference recording. Getting hooked up can be as easy as walking into the venue, placing the recorders and mics and hitting record. **Why else do it?** Taking notes is hard, especially during meetings that run long. People get distracted, they fade in and out (they make grocery lists). No matter how compelling the material, even if they genuinely want to hang on your every word, details are missed, maybe even some of the core message. Recording eliminates the risk and pressure by capturing every word. **Posterity.** Transcribing into a hard copy or backup audio file gives future generations (or at least the attendees) the chance to revisit a meeting's content at another time. **Recording raises the bar.** It's human nature. We're on our best behavior when someone's watching or listening. Recording just may serve as motivation to prepare an efficient agenda, present meaningful content, as well as improve general meeting etiquette and performance. **The capability's cool.** The current crop of recording systems can record directly to laptops, save to CD or MP3, and transfer audio files automatically via a company network, e-mail or FTP server. Now that's saying something.

"No stress note-taking"

PHILIPS

Everything you need to capture, transcribe and archive every word.

D. Pocket Memo 955 Conference Recording and Transcription System Comes ready to go, right out of the box. Boundary microphones pick up sound from a 360° radius to capture every detail. Compact DSS file encoding means faster file transfer, less network traffic and crystal clear sound. Digital recorder automatically downloads audio files directly onto your computer via USB, or completed files can be transferred via memory card for easy storage and/or transcription. Ergonomic foot control and stereo headphones make playback a breeze. Includes digital recorder, two boundary layer microphones, USB docking station, memory card, remote control, click-on microphone, power supply, interchangeable primary power adapters, rechargeable batteries, SpeechExec Pro Transcribe software, USB smart key, USB foot control, stereo headphones and user manual. Compatible with: Windows® 2000, XP, Vista™.

Kensington Pro Fit™ Washable Keyboard

"Go ahead, get it wet. Nothing cleans a keyboard like a little soap and water"

1 LEGIT You really can run it right under the faucet. Way more effective (and satisfying) than the old "turn-it-over-and-shake-it" method.

2 PROTECTIVE Built-in antimicrobial coating provides continuous microbe-fighting protection for a keyboard that stays cleaner and lasts longer.

3 FULL-SIZE Simple 104-key design is roomy and lightweight.

4 COMFORTABLE Soft touch keys have a really nice feel and responsive action.

5 CONVENIENT Plug-and-play via USB or PS/2. Not a stitch of software's required.

PERFECT FOR Workplace Wellness

Kensington

A. Pro Fit™ Washable Keyboard Perfect for anyone who likes their keyboard clean, really clean. Especially ideal for medical offices, hospitals, schools—anywhere lots of hands come in contact with the same keyboard. Rugged, waterproof, washable design resists spills and makes cleaning a cinch. Simply wash, rinse and air dry. Couple of caveats: water temperature should not exceed 158°F and never, ever immerse the USB plug. PS/2, USB connectivity. Compatible with Windows® 95, 98, NT, 2000, XP, Vista™, 7. Manufacturer's limited two-year warranty.

No.	Color	W × D × H	Unit	Price
KMW-64407	Black	17¾ × 6¾ × 1	EA	37.99

RESILIENT
- Resists accidental spills
- Warranted for life!

PERFECT FOR Long-Lasting Performance

EVAN'S PICK

★ **EVAN SAYS "SPILLPROOF AND WARRANTED FOR LIFE. LOOKS LIKE YOU JUST FOUND YOUR LAST KEYBOARD"**

B. Keyboard for Life Go ahead, tempt fate and keep that cup of coffee right next to your mouse. Sleek, stylin' keyboard features a sealed membrane that actually resists accidental spills. Liquids run right through without damaging delicate keyboard electronics. Slim, space-saving profile features a standard 104-key layout and sturdy metal back plate for added strength. PS/2, USB connectivity. Compatible with Windows® 98, 2000, Me, XP, Vista™, 7. Manufacturer's limited lifetime warranty and free technical support.

KMW-64370	Black	18 × 6½ × ¾	EA	13.99

KNOW The Real World

So, this friend of mine bought the Kensington Pro Fit™ keyboard because he just plain liked the look and feel of it. Full size, no frills and full-depth keys with some weight to them. And the price—he really liked the price. Washability was an afterthought. That was until the Ovaltine (did I mention he's kind of old school?) incident. That's right, he accidentally dumped an entire glass of the malty stuff right onto the keys. Under the faucet it went. He lathered, he rinsed, he repeated. What emerged was the cleanest keyboard he'd ever seen. His exact words? "Squeaky clean."

11-SD-L1-MAR

HELP Keyboard Buying Guide

Key(board) to happiness

The best keyboard is the one you feel best about using. And whether the warm fuzzies stem from how it looks, how it feels or that something special it does, we've got one that's right for you.

CLEAN Gunked up keyboards harbor more nastiness than meets the eye. According to that famous UofA study, there are more germs on typical work surfaces than on a toilet seat. Luckily, many keyboards put up a good fight. Antimicrobial-coated, membrane-sealed, as well as completely washable designs, are all made to give you a reassuring degree of clean.

COMFORTABLE Another study states that the average user taps 2 million keystrokes a day. Hence, the assortment of ergonomic keyboards. Curved or split designs force your hands (in a good way) into a more neutral typing position, providing welcome relief to those overtaxed carpal tunnels, with residual benefits for your neck and shoulders. Beyond that, you'll find keyboards with low-profile keys, built-in supports and those that completely switch the keys around, all in the name of comfort and productivity.

COMPACT A smaller footprint takes up less space. Who couldn't use a little more space?

RESILIENT Hard on your gear? Keyboards with lengthy warranties and membrane-sealed designs are built to hold up for the long haul.

Look closely. You'll also find more seriously cool features that will have you thinking "utopia," not "utility."

COMPACT. COMFY. BRIGHT TOO. GOOD THINGS. SMALL PACKAGE

C. K300 Compact Keyboard Space-saving design features full-size keys in an ultra-flat profile that actually helps you type more comfortably. Backlit media controls give you elegant, instant access to music, videos and e-mail, even in low light. Full-size, integrated number pad makes running numbers fast and effortless. Easy setup—simply plug into your USB port—works right out of the box. Compatible with Windows® XP, Vista™, 7. Manufacturer's limited three-year warranty.

No.	Color	W × D × H	Unit	Price
LOG-920000918	Black	17½ × 7⅞ × 1⅜	EA	37.99

KNOW OEM Consumables

Originality Matters

These days, when talk turns to how to improve productivity and maintain costs, the topic of printing inevitably pops up. Fact is, how high any printing setup scores comes down to the performance of the equipment. Truth? It depends in large part on the type of ink and toner cartridges used. That's where these guys come in.

Brother, Canon, Epson, Lexmark, HP, OKI and Xerox. They're some of the best-selling names in the industry today, and for good reason. These powerhouse brands have blazed the trail for cost-effective, viable print solutions, especially for the SMB.

From their perspective, it comes down to quality. With OEM (original equipment manufacturer) consumables, that's just what you get.

Engineered with the highest level of precision, OEM ink and toner products are produced by the same manufacturer of the correlating printer. The result? Dependable performance, pristine print and more printed pages. Next to nil fail rate. Virtually zero probability of leaks. Pure quality all the way around.

"Holds up nicely"

Monitor mount design puts docs at eye level to prevent neck strain and constant refocusing, plus keeps clutter off your desk.

Fellowes

A. Office Suites™ Monitor Mount Copyholder Adjusts 30° up and 30° down for a viewing height and angle that keeps you focused and comfortable. Mounts to either side of monitor screen. Sliding line guide swings out of the way when not in use. Adjustable copy clip pulls up for A4/legal size paper. Holds up to 150 sheets.

No.	W × D × H	Color	Unit	Price
FEL-8033301	13¼ × 2 × 15	Black/Silver	EA	19.99

"Need a lift?"

Adjustable riser ups the comfort quotient by positioning your monitor at a just-right height.

Fellowes

B. Office Suites™ Premium Monitor Riser Adjustable feet let you set the height right where you want it, plus you can customize your viewing angle within a 2½" range. Space-saving design features a built-in media slot, cup holder, supply drawer and space to stow your laptop underneath. Heavy-duty construction supports 21" monitors up to 80 lbs.

Fully Adjustable

Fellowes

"Get yourself situated"

A myriad of easy adjustments let you position your keyboard to keep strain and pain at arm's length.

C. Office Suites™ Adjustable Keyboard Tray When it comes to your keyboard and mouse, little tweaks in positioning pay off big time in the way of comfort. With this one, you can tweak away. Keyboard tray swivels left or right, whichever you prefer. A single knob adjusts the height and tilt, then locks those settings in place. Sliding arm lets you pull it in closer to you for an even better fit. Mouse tray mounts left or right side. Both keyboard tray and mouse tray include soothing memory foam wrist supports for optimal comfort. Cord management prevents tangles. Constructed of long-performing, scratch-resistant, solid 2mm thick, powder coated steel. Stores underneath your worksurface when not in use. Tilt: +15°/-15°. Mouse tray dimensions: 8½" × 7⅞".

HELP Smart Solutions

Productivity—get comfortable with it.

Workstation-related injuries affect hundreds of thousands of people every year and cost businesses billions in lost productivity and compensation. The thing is, a lot of this pain and drain could be eliminated by outfitting with more ergonomically-minded gear. I'm not talking big stuff like chairs and desks. No, simply switching to smarter accessories can make a real difference.

Take the humble copyholder. As simple in concept as it is in design, yet totally brilliant in execution. A copyholder positions documents at the right height helping reduce neck and eye strain, not to mention the amount of clutter on your desk.

Speaking of positioning things properly. Designed to tilt, swivel, slide and adjust, monitor risers and keyboard trays let you customize your setup so your viewing angle is optimum and your reach completely natural.

Ring, ring. Freedom calling. Don't think you can't be productive while away from your desk. Equip yourself with a headset that's worth its salt, plus a handset lifter to handle calls remotely, and you'll be absolutely good to go.

Get in on the deals. Freebies. Rebates. Big savings. New promos every month!

THE LAST WORD

"Don't let your hard drive break your heart"

It can happen, you know—if you think you're above backing it up, the data gods will get you. Not really, but computer backup is something we've just plain got to do in order to properly manage our data. And it's definitely not the only thing.

EVAN'S TAKE

Pretty sure I'm not alone here when I say document (read, data) management can be a daunting task. Even though we're dealing with data in more digitized forms than ever, we are nonetheless surrounded by it. Electronic files here, discs there and the hard stuff still everywhere (Paperless office? What paperless office?). Luckily there are solutions available to help us attain a higher degree of control. Scanners? Check. Shredders? Check. Devices for data storage, backup and transfer? Check. Check. And check! We've got the stuff to handle data in the most effective, efficient and economical ways.

Want more? In this issue you'll find tech essentials, including printers, consumables, phone systems and keyboards. Be sure to check out the keyboards. Deals? You bet. It wouldn't be Tech Solutions without some sweet deals on tech.
